

# PROTOTYPE PRODUCTION

# PROTOTYPE PRODUCTION

# KEY CAPABILITIES

## Prototype building:

- Composite production shop (including fast (aircraft) rapid prototype parts)
- Molds production
- Mechanic parts production & assembly
- Jigs production
- Pre- & Final assembly of composite-, electrical-, mechanical systems
- Overall aircraft assembly

## Prototype & Mold Production

- Large production space
- Several CNC machines for molds production
- Metal tool shop
- Molds building facility
- Electric/Avionics shop
- Composite facility
